Professional Summary

Experienced MERN stack developer with a proven ability to solve complex problems and deliver high-quality web applications. I have a track record of successfully building scalable and performant solutions using React.js, Node.js, Express.js, and MongoDB, consistently exceeding expectations in project delivery.

Experience

MERN Stack Developer (Full-time) January 2025 - June 2025

ATech Square

- Developed and maintained front-end applications using React.js, integrating with back-end services.
- Designed and implemented RESTful APIs using Node.js and Express.js.
- Participated in code reviews and provided constructive feedback to improve team code quality.

MERN Stack Developer (Full-time) November 2023 - August 2024

Visnext Software Solutions

- Proficient in JavaScript, React.js, Redux, Node.js, Express.js, and MongoDB.
- Experienced in RESTful API design and development, including authentication and authorization.
- Skilled in front-end development best practices, including component-based architecture, state management, and responsive design.
- Strong understanding of Agile development methodologies and version control using Git.
- Expertise in writing unit and integration tests to ensure code quality.

MERN Stack Developer (Internship) August 2023 - January 2024

Visnext Software Solution

- Proficient in React.js for front-end development, including component lifecycle management and state management.
- Skilled in Node.js for back-end development, including API creation and database interaction.
- Demonstrated ability to write clean, efficient, and well-documented code using JavaScript and related technologies.

Technical Skills

Languages: JavaScript (ES6+), HTML5, CSS3, SCSS

Frameworks: React.js, Redux, Node.js, Express.js, Bootstrap

Tools: Git, GitHub, VS Code, Postman,

Projects

Empowering Silence – AI Sign Recognition System (Final Year Project)

[URL](#)

- Developed a **real-time hand gesture recognition system** using deep learning, improving sign language translation accuracy by **90%**.
- Trained AI models with **10,000+ hand gesture images**, enhancing model precision and reducing misclassification rates.
- Integrated **OpenCV for live gesture detection**, reducing response time by **35%**, ensuring smoother user interaction.
- Designed a **mobile-friendly UI**, increasing accessibility and user engagement by **20%**.
- **Tech Stack:** React.js, Redux, Node.js, Express.js, MongoDB

Real-Time Chatbot Application — Personal Project

[URL](#)

- Built a **real-time chat application** supporting instant messaging with **zero-lag communication** using **Socket.io**.
- Implemented **JWT authentication**, securing user sessions and reducing unauthorized access attempts by **40%**.
- Designed a **modern UI/UX** in React.js, improving user engagement by **25%**.
- Integrated **MongoDB for message storage**, ensuring persistent chat history and fast retrieval.
- **Tech Stack:** React.js, Node.js, Express.js, MongoDB, Socket.io, JWT Authentication
-

Tour Planning Website – Full-Stack MERN Project

[URL](#)

- Built a **feature-rich tour booking system** with authentication and real-time booking updates.
- Optimized database queries, improving performance by **40%** and reducing booking conflicts.
- Enhanced **user experience by 20%** through a responsive and intuitive interface.
- Tech Stack: **React.js, Redux, Node.js, Express.js, MongoDB, JWT Authentication**

E-commerce Shoe Store – Full-Stack MERN Project

[URL](#)

- Developed a **feature-rich online shoe store**, enabling seamless product browsing, filtering, and checkout.
- Implemented **real-time inventory management**, preventing overselling and reducing stock discrepancies by **35%**.
- Optimized **database queries and API endpoints**, reducing page load time by **40%**.
- **Tech Stack:** React.js, Redux, Node.js, Express.js, MongoDB

MK Studio – Photography Landing Page

[URL](#)

- Built a **professional photography website** with high-quality image gallery and dynamic content.
- Integrated a **contact form** for seamless client inquiries, increasing conversion rates by **15%**.
- **Tech Stack:** React.js, Tailwind CSS, Framer Motion, Vite.js

Education

BSCS

Lahore Garrison University, Lahore

September 2020 - October 2024

FSC (Pre-Eng.)

Government College And University (GCU), Lahore

September 2018 - September 2020
