Bachelors in Computer Science

University of Management and Technology (Expected 2026)

Lahore

Intermediate in Computer Science

Government College Township Lahore (2022)

Lahore

Matriculation

Bright Grammer School (2020)

Lahore

Professional Experience

MERN Stack Development Intern

Frag Games — Lahore, Pakistan (Sep 2025 – Nov 2025)

- Worked on full-stack web development using the MERN (MongoDB, Express.js, React, Node.js) stack.
- Assisted in developing and debugging dynamic web applications with responsive front-end interfaces.
- Collaborated with senior developers to implement RESTful APIs and integrate front-end with back-end services.
- Gained hands-on experience with Git, version control, and agile development practices.

Lahore

Skills

Web Development:

HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB

Programming Languages:

JavaScript, C++

Tools & Technologies:

Git, GitHub, RESTful APIs, npm, VS Code, Postman

Projects

Job Portal Web Application

Full Stack MERN Project

- Developed a complete job portal where **recruiters can post jobs**, **users can apply**, and **admins manage all operations**.
- Built using **MongoDB, Express.js, React.js, and Node.js**, implementing full CRUD functionality across all roles.
- Integrated **JWT-based authentication** and **authorization middleware** to secure user access and protect routes.
- Designed a **responsive front-end** with React and optimized RESTful APIs for seamless client–server interaction.
- Implemented **role-based access control (RBAC)** for admin, recruiter, and user functionalities. ● Tools used: Git, GitHub, Postman, VS Code, and npm.
